Patch notes - UNIverse - 2.11.3

Bugs fixed:

- SP-4591 [Publications: CROSSREF] Issues with "subtitle" attribute
- SP-4682 [Publication] [Change history] Some publications were not connected to groups
- SP-4684 [Publication] The research groups section is not displayed in the bottom part of publication after user changed author to contributor
- SP-4734 [Publications] Error 400 appears after adding a Primary Advisor who is not in the list for thesis publication
- SP-4747 [Publications: CROSSREF] "publisher" attribute is not sent during CROSSREF manual import

Tech Enabler completed:

- SP-4319 Publications: make multifiled to solve problems with pages
- SP-4595 [CR] - migrate existing working papers to thesis workflow
- SP-4691 [Publications] [Connections] - migrate URLs to connections
- SP-4715 [Publications] - migrate handle and jel classification from vmware-enriched-index
- SP-4738 [CR][Publications] - data updates in the UNIverse spec
- SP-4744 [Publications] -add a new option "Letter of Acceptance" for document version
- SP-4749 [CR] [Thesis] - remove validation for "Legal Basis for Publication" for ROEF
- SP-4753 [CR] - remove date of defense value from EasyWeb export
- SP-4755 [Publications] - migrate date of defense value to dedicated field
- MEDME-8939 [Teaching] Prepare endpoints for Recurring Appointments

Stories done:

- SP-4743 [CR] [Thesis] - hide field "Legal Basis for Publication" for ROEF
- MEDME-8937 [Teaching] Edit all recurring appointments
- MEDME-8938 [Teaching] Add a field "Appointment Frequency" on appointment creation
- MEDME-8940 [Teaching] Discipline tree flow for recurring appointments

Improvement done:

- SP-4708 [Publications] -add a new option "Letter of Acceptance" for document version
- MEDME-9551 IdM-Sync: person roles of the type "staff-medme" must also be synchronised if non-UNIverse roles are available
